

# PREHISTORIC PREDATORS EXPECTATIONS AND SEQUENCING SUPPORTS

ZooTampa has teamed up with the Center for Autism and Related Disabilities at the University of South Florida to provide support and assistance to optimize the potential of people who are neurodiverse. We also recognize Autism Shifts, The Learning Academy, Autism Speaks, and the Diversity Action Coalition and applaud their efforts to promote inclusive experiences.

# Sensory Key

There are lots of things to see here. It might be bright or hurt my eyes in places where I see this. I can wear sunglasses or cover my eyes.

There are lots of things to hear here. It might be loud in places where I see this. I can wear headphones or cover my ears if it gets too loud.

When I see this, there will be things I can taste here. I do not have to put anything in my mouth if I do not want to.

There might be a strong smell in places where I see this. I can hold my nose or cover my nose with something that smells good.

There are lots of things to touch here. There might be things that I feel uncomfortable touching when I see this. I do not have to touch anything that I do not want to.

The Prehistoric Predators event has different expectations than a traditional visit the zoo during the day.

**You can expect:**

- Fog will be near Terror Bird, Cifanotosaurus, and Baryonyx
- Water will be sprayed at the Suchominus and Baryonyx
- Lights near Giant Bear, Suchominus, Terror Bird and Baryonyx
- Loud music
- Loud sounds
- You will not see living animals

# SEQUENCING MAP

ENTRANCE INTO PREHISTORIC PREDATORS

- When I arrive at prehistoric predators I will enter into the photo room.
- I can take a photo or I can let the team member know that I do not want a picture today.

**YES!**

**NO!**

# MEET THE PREHISTORIC PREDATORS

Use looking eyes

Keep your feet on  
the concrete path

ALLOSAURUS

MEGLADON

TITANABOA

MEGALANIA

CARNIVOROUS PLANTS

HERBIVORE AND CARNIVORE SKULLS

SEA SCORPION

**GIANT BEAR**

Suchomimus

EMERGENCY EXIT

TERROR BIRD

BARYONYX

CROLOPHOSAURS

# A PREDATOR'S PURPOSE

Our world would look very different without predators!  
These animals help keep our entire planet  
and the natural world in balance.

This pyramid is a trophic cascade and  
it shows how energy is lost in the food web.

DELTA DROMEUS

DEINONYCHUS

Dire Wolf

SMILODON

CIGANOTOSAURUS

I can look at the book if there is not a Zoo team member at the Wildlife Station.

- Sometimes we have a zoo team member in the "How to save Wildlife" area and they will give me a coin to vote on how I will help wildlife.
- I can look at the book if there is not a Zoo team member at the Wildlife Station.

- I can take a picture at the wall or continue walking.
- Today i will....

**YES!**

**NO!**

- I can look at the photos from the green screen or I can purchase the photos
- Today i will....

**YES!**

**NO!**

I can sit at the bench  
before I exit through the  
predator giftshop

Kona ice is open on some days or  
I can have Kona ice near Africa plaza

**Exit through  
the gift shop**

# THANK YOU

We thank our many like-minded partners for their support to produce materials to enhance the experience of guests at ZooTampa.

The Lowry Murphey Family Foundation, Inc.
